

Do you have the **best HR management and monitoring solution** for your business?

CADA 360 HR Automation is the all-in-one HR and compliance awareness solution created just for car dealers.

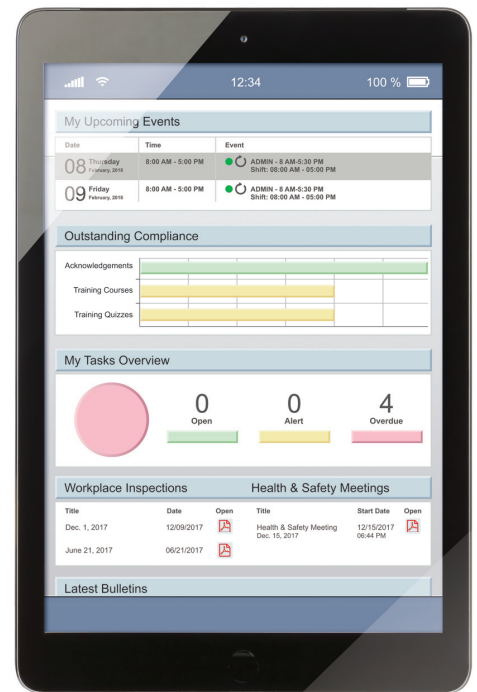

- CADA 360 HR Automation is based on DealerPILOT's proven HR and health and safety monitoring product
- Many dealerships have already taken advantage of DealerPILOT to streamline their routine management and monitoring activities
- No other provider offers all these options in one complete package

HR Automation takes manual, time-consuming tasks, and simplifies and automates them.

- Onboarding, scheduling, health and safety monitoring, plus time sheet management and even biometrics, are all available with CADA 360 HR Automation
- HR Automation's dashboard enables HR to check each employee's status at any time
- Activities and processes that used to be handled manually and as one-offs are now more integrated and automated than ever before

Help your people help themselves!

- Employees have access to their own HR and compliance policies, schedules, and activities
- CADA 360 HR Automation sends reminders and updates to employees, ensuring they know their status on all major dealership programs, from training to corporate policies
- HR Automation frees up HR to do what HR does best – manage the human capital of your dealership!

Which HR automation solution **advocates** for your business?

When you participate in CADA 360 programs, you support national and provincial association advocacy.

CADA 360 HR Automation – turn manual and complicated into automatic and simple.
